PETITION FOR RULE MAKING

In this petition, Vixon Valley Broadcasting is hereby requesting to allot channel 261A (100.1 Mhz) to Forrest City, Wyoming, as its first local FM allotment.

INTRODUCTION

1. This statement is a petition for rule making to allot FM channel 261A (100.1 Mhz) to Forrest City, Pennsylvania and add it to the Commission's FM table of allotments, 73.202. The following will show the need for an FM channel and the effects the allotment of Channel 261A to Forrest City will have.

DISCUSSION

2. Forrest City is located in northeast, Pennsylvania. It is also located within Susquehanna County, a county of some 40,380 persons. Forrest City has a population of 1,846 persons in accordance with the U.S. 1990 census.

3. The allotment of channel 261A to Forrest City will provide the first local broadcast facility to the community and/or the surrounding area. The closest FM allotment to Forrest City is located at Carbondale, Pennsylvania. Carbondale is located 14 kilometers from Forrest City.

It is obvious that from the above spacing that Forrest City is presently without local FM service.

4. Forrest City would greatly benefit from an FM allotment due to the fact there is no AM or FM broadcast facilities within 14 Kilometers of Forrest City. Because of this, it would have an outlet for local self expression. Health and safety for the community would be increased due to having a local communications outlet for warning the Forrest City area of emergency conditions caused by severe weather or other health hazards.

5. Channel 261A can be allotted to Forrest City and meet all rules and requirements of the Commission. The instant proposal will not cause a change in the channel number or a deletion of any channel now appearing in the Commission's table of allotments 73.202.

	<u>Present</u>	<u>Proposed</u>
Forrest City, Pennsylvania	-----	261A

6. In accordance with 73.207 of the Commission's rules, "Minimum Distance Separations between Stations", all allotments on Channel 261A and the pertinent adjacent channels to 261A have been studied with the results listed in Figure 1 of this petition. The geographic coordinates used for the spacing

Study (N. 41 - 42' - 55", W. 75 - 23' - 06") are that of a site located within 8.7 kilometers of the community of Forrest City. A site restriction of 8.7 Kilometers northeast will be required to allot channel 261A to Forrest City. Suitable transmitter sites are available to provide city grade coverage (3.16 mv/m or 70 dbu) to the entire community of Forrest City.

CONCLUSION

7. It has been shown that Forrest City would benefit from the allotment of channel 261A. It has also been shown that channel 261A can be allotted to Forrest City and meet all rules regarding spacing from other stations. Considering these two facts, Vixon Valley Broadcasting hereby requests that the Federal Communications Commission institute a Rule Making proceeding to amend the Table of Allotments to include channel 261A for Forrest City, Pennsylvania , 73.202.

8. Should channel 261A be allotted to Forrest City, Pennsylvania, I certify that I will file an application for a Construction Permit to operate an FM station for Forrest City, Pennsylvania.
